

CogCom/BeCogBio Seminar SS 2025, Monday 13:15-14:45 at UBB, Djerassiplatz 1, 1030 Vienna, at Seminar Room 5.01 (5th floor)

03.03.2025 | Tiago Monteiro | VetMedUni Vienna

Using time, choice and movement as windows into cognition (host: Friederike Range)

10.03.2025 - No seminar

17.03.2025 | Avel Guénin-Carlut | University of Sussex

How can birds develop socio-sexual preferences? Contextuality, robustness, and evolvability in the development of animal semiotics (host: Yseult Héjja-Brichard)

24.03.2025 | Jérémy Lemaire | University of Vienna

Behavioral ecotoxicology: Effects of mercury on a neotropical caiman

31.03.2025 | Sabrina Turker | University of Vienna

Cognitive and neurobiological foundations of language (learning), reading and dyslexia (host: Narly Golestani)

07.04.2025 | Marina Scheumann | Tierärztliche Hochschule Hannover

From Zoo to the wild: Vocal and social behaviour in Southern wild rhinoceros (host: Angela Stöger)

28.04.2025 | Johan Lind | Linköping University, IFM Biology

Animal intelligence and a sequence bottleneck (host: Barbara Klump)

05.05.2025 | Martina Stocker | University of Vienna

Salivary hormone measurements in primates and corvids (host: Thomas Bugnyar)

12.05.2025 | Diana Liao | University of Tübingen, Institute of Neurobiology

Cognitive building blocks for communication in crows (host: Jelena Katic)

19.05.2025 | Narly Golestani | University of Vienna

Relative influences of nature vs nurture on the (auditory) brain and language

26.05.2025 | Inbal Arnon, Hebrew University, Jerusalem

The learnability consequence and sources of Zipfian distributions: How cultural evolution gives rise to distributional properties of language (host: Tecumseh Fitch)

02.06.2025 | Katharina Wenig | University of Vienna

Ontogeny and measurement of emotional contagion in Common ravens (*Corvus corax*) (host: Thomas Bugnyar)

16.06.2025 | Varalika Jain | University of Vienna

The impacts of human recreational activity on golden eagles in the Alps (host: Petra Sumasgutner)

23.06.2025 | Yseult Héjja-Brichard | VetMedUni Vienna

Of fishes and birds: Computational approaches to understanding sexual signal evolution (host: Leonida Fusani)
